

Position: Mobile Application Software Engineer (Cincinnati, OH)

Description: As a Mobile Application Software Engineer, you will be part of a cross-functional team, applying your skill, experience, and creativity towards building complex and scalable mobile application solutions. You will work in a highly collaborative environment, solving exciting problems while forging and leveraging best engineering practices. We work full-stack and the team owns features end-to-end primarily for PE embedded control units.

The company will not sponsor a Visa for this position.

Company Description: Performance Electronics, Ltd (PE) is an engineering company specializing in the design and manufacture of embedded electronic control systems for various industries, including the automotive sector. PE has extensive experience in all aspects of control system design, integration, testing, production, and life cycle management.

Responsibilities and Duties:

- Design and build applications for the iOS and Android platforms.
- Develop in Swift, Kotlin, and Java.
- Deploy new and updated applications via Apple Store and Google Play.
- Ensure the performance, quality, and responsiveness of mobile applications.
- Collaborate with a team to define, design, and ship new features.
- Identify and correct performance issues and bugs.
- Help maintain code quality, organization, and automation.
- Gather requirements and provide accurate and realistic project milestones and timelines for completion.
- Create and maintain technical documentation for mobile applications.
- Suggest new features and expansion of existing apps to improve performance and reliability.
- Complete deliverables per schedule and clearly communicate any changes in deadlines as soon as possible.
- Maintain positive rapport with clients.

Minimum Requirements:

- 5 years of professional experience in mobile application development.
- Bachelor's degree in Computer, Electrical or Software Engineering.
- Experience with Bluetooth Low Energy connectivity.
- Highly motivated self-starter with a passion to develop high quality applications.
- History of successful app deployments in both Apple Store and Google Play.
- Experience with graphic design tools (e.g., Adobe Illustrator or Adobe Photoshop) for documentation and client presentations.
- Experience working under a software design life cycle.

How to Apply: Email your resume and cover letter to: HR@pe-ltd.com.
